Notes to the Condensed Interim Financial Statements

1. REPORTING ENTITY

Comvita Limited (the "Company") is a company domiciled in New Zealand and registered under the Companies Act 1993 and listed on the New Zealand Stock Exchange ("NZX"). The Company is an issuer in terms of the Financial Reporting Act 2013 and Financial Markets Conduct Act 2013.

The condensed interim financial statements of the Group for the six months ended 31 December 2020 comprise the Company and its subsidiaries (together referred to as the "Group") and the Group's interest in equity accounted investees.

The principal activity of the Group is that of manufacturing and marketing quality natural health products, apiary ownership and management.

2. BASIS OF PREPARATION

(a) Statement of compliance

The Company is a FMC reporting entity for the purposes of the Financial Reporting Act 2013 and under Part 7 of the Financial Markets Conduct Act 2013. These Financial Statements comply with these Acts and have been prepared in accordance with the New Zealand Equivalents to International Financial Reporting Standards as appropriate for profit-oriented entities.

The condensed interim financial statements do not include all of the information required for full annual financial statements and should be read in conjunction with the group financial statements as at and for the year ended 30 June 2020.

The condensed interim financial statements were approved by the Board of Directors on 24 February 2021.

(b) Basis of measurement

The financial statements have been prepared on the historical cost basis except for derivative financial instruments, financial instruments designated as fair value through other comprehensive income, biological assets and leases which are measured at fair value. Fair values have been determined for measurement and/or disclosure purposes on the same basis as those applied by the Group in the financial statements as at and for the year ended 30 June 2020.

(c) Functional and presentation currency

These financial statements are presented in New Zealand dollars (\$), which is the Company's functional currency. Amounts have been rounded to the nearest thousand.

(d) Use of estimates and judgements

The preparation of condensed interim financial statements in accordance with NZ IAS 34 Interim Financial Reporting requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these condensed interim financial statements, the significant judgements made by management in applying the Groups accounting policies and the key sources of estimation uncertainty were the same as those applied to the financial statements as at and for the year ended 30 June 2020.

2. BASIS OF PREPARATION (CONTINUED)

(e) Covid-19 considerations

Covid-19 considerations Comvita is classified as an 'Essential' business by the New Zealand Government, therefore having no impact on the manufacturing process of the Group. For the period ended 31 December 2020 the Group has not been significantly impacted by COVID-19. There has been a strong demand in sales, in particular in online channels across all markets. An assessment over the carrying value of assets and liabilities has been performed and the Group has recognised provisions where necessary relating to the impact of COVID-19. The Group continues to operate as a going concern and Senior Management continue to closely monitor the situation.

(f) Reclassification of freight expenses

From 1 July 2020, the business has changed the classification of freight expenses from distribution expenses to cost of goods sold. For consistency, \$3,014,000 of freight expenses have been reclassified from operating expenses to cost of goods sold for the six months ended 31 December 2019.

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies applied in these condensed interim financial statements are the same as those applied in the Group's financial statements as at and for the year ended 30 June 2020.

4. SEGMENT REPORTING

A review of operating segments has been completed in the current year and this has resulted in a change to reported segments. Previously reported segment information has been restated in line with the operating segments described below.

Segment information is presented in the condensed interim financial statements in respect of the Group's contribution segments which are the primary basis of decision making. The contribution segment reporting format reflects the Group's management and internal reporting structure.

Performance is measured based on contribution which is a measure of profitability that the segment contributes to the Group. Contribution is used to measure performance as management believes that such information is most relevant in evaluating the results of certain segments. Inter-segment pricing is determined on an arms-length basis.

Each segment sells Comvita's range of products. Comvita's range of products primarily include products with apiary and other natural ingredients.

The Company is organised primarily by geographic location of its subsidiaries.

Notes to the Condensed Interim Financial Statements

Derivatives – liabilities (hedging instrument)	-	(1,172)	(714)
Total liabilities	-	(1,172)	(714)

Derivative – assets and liabilities (hedged) and designated at fair value through the income statement.

The Group's Level 2 fair values for simple over-the-counter derivative financial instruments are based on broker quotes. Those quotes are tested for reasonableness by discounting expected future cash flows using market interest rate for a similar instrument at the measurement date. Fair values reflect the credit risk of the instrument and include adjustments to take account of the credit risk of the Group entity and counterparty when appropriate.

The Group determines Level 2 fair value through the application of the Binomial Model (2019: Binomial Model). Inputs include, the share price (a Level 1 input), risk free rate of the remaining life of the warrant, and the volatility of the share price.

Fair values

The fair value of all financial assets and liabilities is the same as the carrying amount.
